

NICOLAE TESTEMITANU STATE UNIVERSITY OF MEDICINE
AND PHARMACY OF THE REPUBLIC OF MOLDOVA

Accredited
by
wfme
WORLD FEDERATION FOR
MEDICAL EDUCATION

Currently, the **Faculty of Stomatology** has 1130 students enrolled, including students from various countries such as Romania, Ukraine, Russia, Israel, Germany, USA, Italy, etc. The diverse student body contributes to a multicultural and enriching learning environment.

Students have the opportunity to enhance their practical skills at the **University Dental Clinic** and the **University Dental Center**. These facilities are equipped with state-of-the-art and high-performance equipment, enabling the delivery of medical services according to rigorous quality standards while ensuring utmost comfort for patients.

The faculty possesses its own dental technique laboratory, providing students with hands-on experience in creating dental models. This practical training further enhances their skills and prepares them for real-world scenarios in their future dental careers.

In 2019, the Faculty of Stomatology launched the two-year *Stomatology International Program* (clinical fellowship/residency).

Moreover, the Faculty of Stomatology at *Nicolae Testemitanu University* is registered in the European network of dental faculties and undergoes evaluation within the **DentEd** Program by the Dental Medical Education Commission of the Directorate General for Education and Culture of the European Union.

If your passion is to bring smiles to people's faces, then we invite you to join the professionals at Nicolae Testemitanu University.

Discover the rewarding path of becoming a skilled healthcare provider and make a positive impact on people's lives!

STOMATOLOGY

study program

PUTTING SMILES ON PEOPLE'S FACES HAS MAGICAL RATHER THAN ONLY STOMATOLOGICAL EFFECTS

The **Stomatology** integrated higher education program offered by *Nicolae Testemitanu* State University of Medicine and Pharmacy of the Republic of Moldova aims to train stomatologist for the national and other countries health systems. The program is designed to provide high-quality medical assistance to the population while fostering research development in the field.

The **Stomatology** integrated higher studies program, offered by the Faculty of Stomatology, is highly regarded and recognized not only in the European region but also in the United States of America. This reputation stems from its student-centered approach, emphasis on quality, and a curriculum built on both fundamental and applied knowledge.

The Faculty of Stomatology operates based on modern principles, with representatives who are responsive and committed to continuous development and achieving high performance.

This commitment greatly contributes to enhancing the visibility and prestige of the Faculty, making it a top choice for young individuals aspiring to become stomatologists. Since its establishment, the Faculty of Stomatology has successfully trained over 6,500 stomatologists.

The **Stomatology** study program was accredited by:

-  National Agency for Quality Assurance in Education and Research (2018);
-  Dental Board of California, USA (2018);
-  World Federation for Medical Education (2022).

The **training period** for stomatologist is **5 years**, during which they acquire extensive knowledge and skills to become highly qualified specialists capable of preserving oral health and preventing dental diseases within the population. Upon successful completion of their studies, graduates are awarded a stomatologist's diploma, recognizing their professional expertise.

The Faculty of Stomatology at Nicolae Testemitanu University plays a crucial role in:

- ✓ *Training stomatologists for both the national and other countries health systems;*
- ✓ *Advancing medical-dental scientific research;*
- ✓ *Providing high-quality medical care to the population;*
- ✓ *Offering continuing education programs for stomatologists;*
- ✓ *Strengthening collaborative relationships with relevant institutions.*
